To Whom It May Concern:

The University of Georgia Masters of Business Administration (MBA) Professional program is setup in a cohort format. The program is 23 months with 16 classes taught within 8 modules within 6 semesters. This allows each discipline of study to build onto the next course. The students know the exact order of each class so they can plan accordingly. Another advantage to a cohort structure is that students can form relationships that result in networking, team building, and study groups.

Due to the cohort format of the program, we have established 6 equal payments for each semester which aligns with UGA’s payment schedule. The seat fee or deposit of \$1,000 is applied to the first payment. The program price is based on many factors including direct and indirect costs; therefore it is not based on a fixed cost per credit hour or course. The total cost is then divided by the total number of semesters and payment is due at the beginning of each semester. The Professional MBA total program cost for in-state residents is \$56,400. The out-of-state total program cost is \$72,000.

Per UGA policy, the standard payment invoice is by semester. The amount per course varies each semester depending on the number of courses for that time frame; therefore we cannot itemize payment invoices by course since we do not charge a per course rate. The MBA Professional program pays for fees assessed each semester (technology, green & institution fee) on behalf of each student. There are no parking fees. The dates of the courses, course titles, course numbers and grades are available through eLC (distance learning tool) and Athena (official UGA student records system) for each student enrolled at UGA. These may be printed and submitted as a supplement to the payment invoice as needed.
